

FAST. SECURE.

kwiktrust

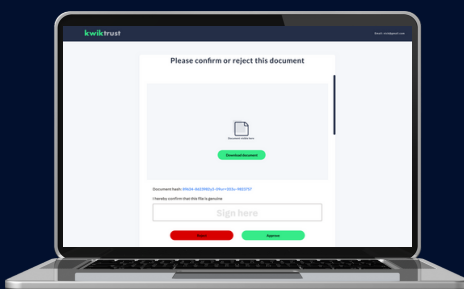

COLLABORATIVE.

## SIGN AND SEND YOUR DOCUMENTS WITH EASE.

CHEAPER, EASIER, MORE EFFICIENT. DO MORE FOR LESS WITH KWIKTRUST.

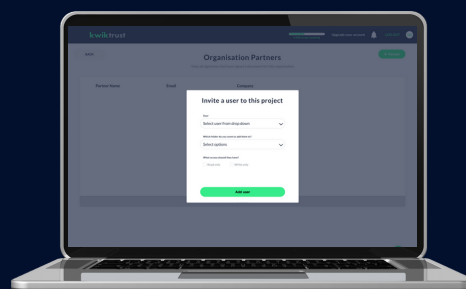

### THE PROBLEM

File validation and digital signatures are fraught with risk: From multiple versions of the same file to multiple parties validating and sending materials the chance of error is a constant worry.

Additionally, digital signatures, KYC, and protecting IP can be costly.

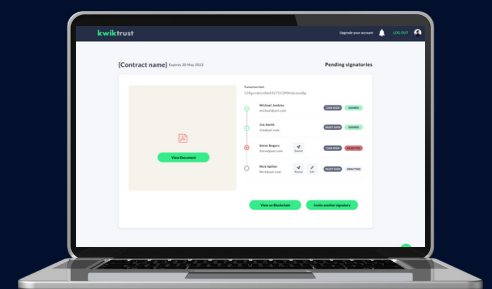

### OUR SOLUTION

KwikTrust is the next digital signature and e-validation platform. We offer multiple account services for sending, signing, and storing documents.

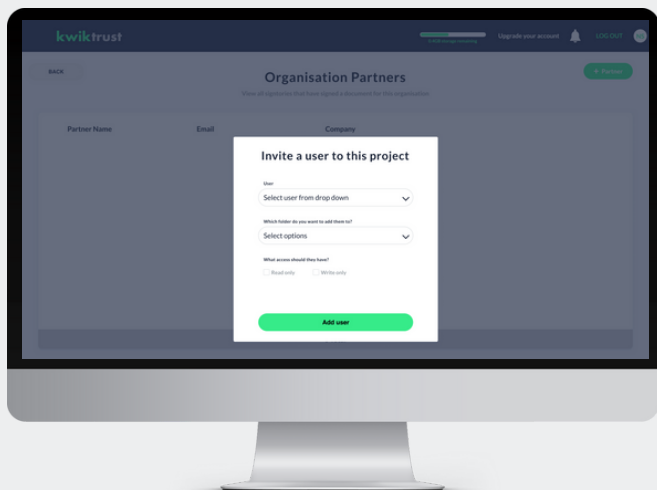

In minutes upload your content to create a tamperproof, timestamped record of creation. Files can be added, validated, signed, and stored at any time.

### BEST IN CLASS

Our Platform allows for easy, self-certified and third-party validation of files, with the results stored securely on a blockchain, creating an irrefutable record of activity.

Providing key features like contract management and KYC, KwikTrust is faster, simpler, more secure and less expensive than competitors.

## KEY FEATURES

- Digital signatures
- Know-Your-Client checks
- Document health check
- Document storage
- Tamperproof audit trail
- Collaborative workspaces
- Multi-Project capabilities
- Contract management
- Secure your files
